This agreement between _____ (“donor”) and the Alternative Fuel Foundation (“recipient”) gives recipient permission to locate a fryer oil pick-up container at the service location(s) listed and the exclusive right for removing waste fryer oil from said location. By signing this agreement the donor and recipient agree that:

1. The donor will provide a suitable site on its premises for recipient’s collection containers and will place all of its waste fryer oil in those containers.
2. Recipient has permission to come on the property as often as necessary for the pick-up of waste fryer oil.
3. The donor and its employees will be mindful to not put water, food waste, grease from traps, soap, or any other substance that is not fryer oil in recipient’s collection containers.
4. Recipient will be mindful to be clean and not spill while emptying its collection container.
5. Recipient has the exclusive rights to collect all the waste fryer oil produced from the service location(s).
6. Recipient will pick up the waste fryer oil according to the conditions specified above under the column ”frequency” in the table marked “Collection container and pickup information” to start, and more or less often as necessary in the future.
7. Recipient will provide donor with a letter at the end of the year stating how many gallons were donated and what the average yearly commodity price was so they can file IRS form 8283 and claim a tax deduction.
8. Both the donor and recipient have the right to terminate this agreement at any time, for any reason, by giving the other party 14 days notice.

By signing this agreement the donor is also signifying his/her intention to terminate any existing agreement or contract with any other fryer oil collection company. Should it be necessary, the donor intends that this agreement serve as written notification to the other company and requests that they remove their property within 14 business days.
